

Code Layout, Readability and Reusability

LegalEase – AI Legal Document Generator

LegalEase Inc. | Documentation Version 2.0

Anitha M (Team Leader), Swathi M, Nithyasri M, Pooja Shree P

Project organization

The code is split into `ai_core/`, `frontend/`, `legalEaseAPI/` and `Image/`, with `config.py`, `run.sh`, `requirements.txt` and `.env.example` at the root, instead of one large file.

Readability

Clear module and function names (`generate_document`, `sanitize_text`, `format_docx`, `format_pdf`, `format_html_preview`) keep the code easy to follow.

Reusability

The formatting utilities and the generator class can be reused for new document types or export formats.
