

Scalability & Future Plan

LegalEase – AI Legal Document Generator

LegalEase Inc. | Documentation Version 2.0

Anitha M (Team Leader), Swathi M, Nithyasri M, Pooja Shree P

Future enhancements

- Multi-language document generation
- User accounts with saved history and templates
- E-signature integration
- Clause-level version comparison
- More export formats (ODT, HTML)
- Optional human legal-review workflow
- Docker deployment with HTTPS, CORS and rate limiting

Scalability

The separate frontend, API and AI-core modules make it easy to add new document types, models or export formats without redesigning the whole application.
